PENSION ROSTER

EXPLANATION.

Where the following statement shows the pensioner paid a pension for 1917, also funeral expenses, it is due to the fact that the pensioner died after filing his annual certificate, prior to September 1, 1917, and was therefore not entitled to receive pension for the pension year beginning September 1, 1917, and warrant sent to pay the pension has been returned to the Auditor of Public Accounts to be paid back into the Treasury. The pensioner having died, prior to September 1, 1917, the estate of the pensioner was entitled to receive the funeral expense allowance.

Where the following statement shows that pensioner received two pensions within the fiscal year, ending September 30, 1917, the explanation is this: One pension should have been paid prior to October 1, 1916, but was not paid because during that time the annual certificate required by law to be filed with the Auditor of Public Accounts, had not been filed. The said certificate was filed after October 1, 1916, and the pension for 1916 was paid within the fiscal year ending September 30, 1917. The pension for 1917 was also paid at the proper time within the same fiscal year.

Odd amounts indicate that the pensioner has been rated and such amount paid in addition to his former pension.

Pensions under Act 1888 are payable May 1st of each year in advance.

Pensions under Acts 1900 and 1902 are payable Sept. 1st of each year in advance.

Pensioners are rated as follows:

For total blindness, \$180.00.

For loss of limb or limbs while in the discharge of duty as Confederate soldier, \$85.00.

For total disability from disease or infirmities of age, \$50.00.

For partial disability, \$35.00.

To widows of Confederate soldiers whose husbands have died since the war, \$33.00.

To widows of Confederate soldiers whose husbands were killed or died from disease during the war, \$50.00.

To matrons who served in Confederate hospitals, etc., \$50.00.
